

This is the MOST IMPORTANT MAP for January 6th. Focus on the Congressional building - NOT the White House. (media.patriots.win)

Don't forget, there are three subways leading to and from the Capital that congress uses to escape. Hypothetically speaking, if those were occupied or sabotaged, they'd have to come out and face us, in order to leave.

Remember, there is a passageway between the Capitol and the Library of Congress across the street.

Trying to steal an election through rigging software and driving or flying ballots all over the country? I agree, It really is crazy they on the left thought we would do anything about it. People have had it with corruption. They are ready to fix the problem we have in the USA.

You're a fucking retard if you don't realize there are access tunnels under the White House and Congress. They don't need to walk in the front doors. You'll never see them enter or leave.

Why do you have to be so fucking rude, especially when tunnels are shown? Your whole spirit is negative and combative. Apologize to him.
